Duties & Taxes

Among the 4 orders we had so far (2x for Germany, 1x for Poland, 1x to Czech Rep.) two were stopped by customs (1x Germany, 1x Poland).

The one for Germany had to pay duties + taxes and the one from Poland only tax. It seems that there is absolutely no general rule when and if parcels get checked and if duties and/or taxes are payable. So there is always a potential risk that one has to pay duties and/or taxes for her/his robe, depending on the mood and the understanding of the relevant customs officer.

It seems that mentioning a private person (not a Zen-center or a company) as receiver raises the chances that cargo gets delivered without being charged with tax.

However this is no guarantee and one should always consider that she or he has to pay duties and/or taxes on cargo value.
