

The Twelfth Gate: Three Men Are Walking

BY ZEN MASTER SEUNG SAHN

Three men are walking. The first man makes a sword sound, the second man waves his hands, and the third man picks up a handkerchief.

1. If you were there, what would be your correct function?
2. What is the relationship?
3. And lastly, what is the situation?

Commentary: The function of each is different, but the situation is the same.
